

### WATER BASE POLYURETHANE VARNISH

#### DESCRIPTION

**MAGIECHEM 300UV** is a multi gloss varnish based, aqueous dispersion of aliphatic urethane, with a UV Blocker.

**MAGIECHEM 300UV** gives a high quality appearance with a very good abrasion/chemical resistance, with non-yellowing properties, primarily designed for hardwood floors, but it can also be used for gym surfaces and concrete.

#### ADVANTAGES

- Excellent resistance to UV rays.
- Good resistance to abrasion.
- Good chemical resistance.
- Excellent adhesion to wood and concrete.
- Easy to apply.
- Available in clear gloss, semigloss and matte finish.

#### INSTALATION INSTRUCTIONS

The surface must be free of all contaminants such as grease, oil, and tire marks, etc...

A mechanical abrasive is highly recommended, depending on the surface conditions.

#### APPLICATION

- **MAGIECHEM 300UV** may be applied by flat squeegee, roller, brush, etc...
- A light sanding is recommended between coats.
- Apply at least two coats of sealer.

**\*\*Note: In accordance to the "Regulations Limiting Volatile Organic Compounds (VOCs) in architectural coatings\*\***

#### PRECAUTIONS

- Consult MSDS before use.
- Wait 5-10 minutes before you start to lay down the product in order to minimize the color variations.
- Don't apply when temperature is under 13°C (55°C).
- Ensure good ventilation.

**MAGIECHEM**
